**TITLE: My Story –Motivational Session by Successful Entrepreneur/Start-up Founder**

**DATE: 11-10-2023**

**DURATION: One Day (6 Hours) ACTIVITY**

**CATEGORY: IIC activity–Q1**

**1. Objective:**

To inspire and motivate participants through the insights and experiences of successful innovators, fostering a mindset of resilience, creativity, and determination in the face of challenges.

**2. Outcome of the Event:**

**Ignite Passion and Purpose:**

Encourage participants to discover and pursue their passions.  
Illustrate how successful innovators found their purpose and aligned it with their work.

**Cultivate a Growth Mindset:**

Share stories of overcoming failures and setbacks to emphasize the importance of resilience.  
Instill a belief that challenges are opportunities for growth and learning.

**Promote Creativity and Innovation:**

Showcase innovative thinking and problem-solving strategies employed by successful individuals.  
Encourage participants to think outside the box and embrace a culture of innovation.

**Provide Practical Insights:**

Offer practical advice and actionable tips for personal and professional development.  
Share specific strategies that successful innovators have used to achieve their goals. The IIC aims to create an entrepreneurial innovation idea in the campus.  
By achieving these objectives, the motivational session will empower participants to embrace challenges, pursue innovation, and cultivate a mindset conducive to success in their endeavors.

**Session on Problem solving and Ideation Workshop**

**Guest Lecture on**

**“Practical Project Management: My Reflection “**

*Submitted by*

**DEPARTMENT OF ROBOTICS AND AUTOMATION**

**COORDINATOR**

Dr.G.Renuka Devi, Professor/RA

**DATE: 13-10-2023**

**Title: “Practical Project Management: My Reflection”**

**Date: 13-10-2023**

**Duration: 3 hours**

**Activity Category: IIC activity -Q3**

**1. Objective:**

- Share practical insights and real-world experiences from the speaker's project management journey.
- Equip participants with actionable strategies and key lessons learned to enhance their project management skills and contribute to successful project outcomes.

**2. Outcome:**

- **Deeper Understanding:** Participants gain insights into practical challenges and successes, leading to a deeper comprehension of real-world project management scenarios.
  - **Applicable Strategies:** Attendees acquire actionable strategies and tools that can be immediately applied in their own project management practices.
  - **Improved Decision-Making:** The lecture contributes to improved decision-making skills by sharing lessons learned and critical decision points from the speaker's experiences.
  - **Enhanced Project Efficiency:** Practical tips and methodologies shared in the lecture empower participants to enhance the efficiency of their project planning and execution.
  - **Inspiration for Continuous Improvement:** Attendees leave motivated to embrace a culture of continuous improvement in project management, fostering adaptability and resilience in the face of challenges.

### **SPEAKER PROFILE**

#### **G.MUTHUKUMAR**

Deputy General Manager

Program Management

Mahindra Research Valley

Mahindra & Mahindra

G.Muthukumar is currently working in Mahindra Research Valley as Deputy General Manager, Program Management. He has accomplished professional with over 25 years of experience in the automotive field, have consistently demonstrated his ability to drive results and achieve success while effectively managing ICE & EV projects. Throughout his career, have executed global projects, effectively managed product portfolios, spearheaded business transformations, and implemented strategic initiatives to optimize manufacturing, supply chain, quality, aftermarket, logistics, and cost.

He is an esteemed alumnus of IIT Bombay and Washington University in St. Louis. Accomplished his Engineering Post Graduate from College Of Engineering, Guindy. He is certified as Program Management Professional by PMI, USA.

Earlier he worked in product development of Volvo India, Ashokleyland, Brakes India Ltd, Kalyani Brakes, etc.

## **SESSION OUTCOME**

- Mr. G.Muthukumar delivered a presentation titled " Practical Project Management: My Reflection " at the ground floor auditorium on 13<sup>th</sup> October 2023.
- Gain insights into practical project management scenarios through the speaker's reflections.
- Apply actionable strategies and lessons learned to enhance personal project management practices.
- Improve decision-making skills by learning from critical decision points in the speaker's experiences.
- Acquire practical tips to enhance the efficiency and effectiveness of project planning and execution.
- Draw motivation and inspiration for continuous professional growth in project management.
- Engage in networking opportunities with industry professionals and peers.
- Apply industry best practices to elevate project management approaches.
- Leave the session with increased confidence in handling project challenges.

### **IIC Calendar Activity**

**“Exposure and field visit for problem identification”**

*Submitted by*

**DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING**

**COORDINATOR**

**Dr. S. Arunmozhi,  
Prof & Head/ECE  
MVIT**

**Date: 19.10.2023**

**Title:** Exposure and field visit for problem identification

**Date:** 19.10.2023

**Duration:** 1 day

**Activity Category:** IIC activity

## **1. Objective:**

The objective of the program organized by SAEISS MWC Division for an industrial visit to the Global Automotive Research Center (GARC) in Oragadam multifaceted include:

**Learning and Exposure:** Providing participants with an opportunity to gain practical insights and knowledge about the automotive industry, its latest technologies, and research and development activities.

**Industry Interaction:** Facilitating interaction with professionals, engineers, and experts in the automotive sector to enhance networking and build relationships for potential career or business opportunities.

**Research and Innovation:** Showcasing the latest research, testing, and development activities in the automotive field, promoting innovation and fostering an environment of technological advancement.

**Understanding Manufacturing Processes:** Providing an understanding of the manufacturing processes, quality control, and testing procedures employed in the automotive industry.

**Safety and Compliance:** Highlighting the safety measures, regulatory compliance, and quality standards adhered to in the automotive sector, emphasizing the importance of safety in vehicle manufacturing.

**Career Development:** Offering students and professionals an opportunity to explore potential career paths within the automotive industry and gather valuable insights for their professional growth.

**Future Trends:** Exploring emerging trends in automotive technology, such as electric vehicles, autonomous driving, and sustainability, to keep participants updated on industry developments.

**Hands-on Experience:** Allowing participants to witness, and possibly engage in, hands-on demonstrations and experiments related to automotive research and testing.

**Collaboration Opportunities:** Encouraging collaboration between SAEISS MWC Division and the Global Automotive Research Center (GARC) for future projects, research initiatives, or knowledge-sharing.

Overall, the objective is to provide participants with a comprehensive understanding of the automotive industry, its technological advancements, and its significance in today's world, as well as to promote collaboration and learning opportunities.

## **2. Outcome of the Visit:**

The outcome of the industrial visit to the Global Automotive Research Center (GARC) in Oragadam can be multifaceted and beneficial for the participants. Some potential outcomes of the visit may include:

**Enhanced Knowledge:** Participants gain a deeper understanding of the automotive industry, its

technologies, and research and development processes. They become more aware of the latest trends and advancements in the field.

**Networking Opportunities:** Participants have the chance to connect with professionals, engineers, and experts in the automotive sector. This can lead to valuable contacts for future collaborations or career development.

**Practical Insights:** Participants witness real-world manufacturing processes, quality control measures, and safety standards used in the automotive industry, providing them with practical insights into how things work.

**Career Path Clarity:** Students and professionals may gain clarity on potential career paths within the automotive industry, helping them make informed decisions about their future.

**Inspiration for Innovation:** Exposure to cutting-edge research and development activities can inspire participants to engage in innovative projects or research in the automotive field.

**Educational and Academic Benefits:** Students can use the knowledge and experience gained during the visit to enhance their academic coursework, research projects, or theses related to automotive engineering and technology.

**Collaboration Opportunities:** The visit may open doors for collaboration between SAEISS MWC Division and GARC in terms of joint research projects, training programs, or knowledge-sharing initiatives.

**Increased Industry Relevance:** Participants can position themselves as more industry-relevant candidates for future job opportunities or research positions within the automotive sector.

**Long-term Learning:** The insights and experiences gained during the visit can have a lasting impact, encouraging ongoing interest and engagement in the automotive industry.

The specific outcomes of the visit may vary based on the participants' background, objectives, and the activities organized during the visit. However, overall, the visit is intended to be a valuable educational and networking experience that can contribute to the personal and professional development of those who attend.

IIC Calendar Activity  
“Intra Institutional Idea Hackathon”**

*Submitted by*

**DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING**

**COORDINATORS**

**Dr. R. Valli**

**&**

**Dr. S. Arunmozhi**

**Date: 20.9.2023 and 21.9.2023**

**Title:** Intra Institutional Idea Hackathon

**Date:** 20.9.2023 and 21.9.2023

**Duration:** 2 days

**Activity Category:** IIC activity

### **1. Objective:**

The objectives of an Intra-Institutional Idea Hackathon can vary depending on the specific goals and challenges faced by the institution. However, here are some common objectives that organizations might aim to achieve through such an event:

- **Innovation and Creativity:** Encourage participants to think outside the box and come up with innovative ideas that can address specific challenges or opportunities within the institution.
- **Problem Solving:** Provide a platform for teams to tackle real-world problems faced by the institution and develop effective solutions through collaborative problem-solving.
- **Cross-Functional Collaboration:** Promote collaboration among individuals from different departments or disciplines within the institution. This cross-functional interaction can lead to diverse perspectives and more comprehensive solutions.
- **Employee Engagement:** Boost employee engagement by involving staff in a dynamic and intellectually stimulating event. This can contribute to a positive organizational culture.
- **Talent Development:** Provide a learning opportunity for participants to enhance their skills, whether it's in ideation, project management, teamwork, or communication.
- **Idea Validation:** Allow for the testing and validation of new ideas in a controlled environment. This can help identify viable solutions that can be further developed or implemented.
- **Promotion of Entrepreneurial Spirit:** Foster an entrepreneurial mindset among participants, encouraging them to take ownership of their ideas and explore opportunities for implementation.
- **Identification of Emerging Trends:** Explore emerging trends, technologies, or methodologies that can be applied to improve or transform aspects of the institution's operations.
- **Strategic Alignment:** Ensure that generated ideas align with the institution's strategic goals and objectives. This can help prioritize initiatives that contribute to the overall mission of the organization.
- **Employee Recognition:** Recognize and celebrate the creativity and contributions of employees. This can enhance morale and job satisfaction.
- **Knowledge Sharing:** Facilitate the exchange of knowledge and expertise among participants, creating a culture of continuous learning and improvement.
- **Networking Opportunities:** Provide a platform for participants to network with colleagues, mentors, and potentially external partners who may support the implementation of successful ideas.
- **Promotion of Intrapreneurship:** Encourage employees to act as "intrapreneurs" by taking initiative and driving positive change within the institution.
- **Sustainability and Efficiency:** Explore ideas that contribute to the institution's sustainability goals, operational efficiency, or cost-effectiveness.

- **Feedback Mechanism:** Establish a feedback mechanism where participants receive constructive feedback on their ideas, helping them refine and improve their concepts.

## 2. Outcome of the celebration:

The outcomes of an Intra-Institutional Idea Hackathon celebration can be multifaceted and can include both tangible and intangible results. Here are some potential outcomes:

- **Innovative Ideas:** The primary outcome is the generation of innovative ideas that address specific challenges or opportunities within the institution. These ideas can be further developed or implemented to bring positive changes.
- **Prototype or Concept Development:** Teams may have developed prototypes, proof-of-concepts, or detailed concepts for their ideas during the hackathon. These tangible outputs can be valuable for future implementation.
- **Enhanced Collaboration:** The celebration can highlight the success of cross-functional collaboration and teamwork. Participants may have forged new relationships and gained a better understanding of colleagues from different departments.
- **Employee Engagement and Morale:** Successfully executing a hackathon contributes to a positive organizational culture, boosting employee morale and engagement. Participants feel a sense of accomplishment and pride in their contributions.
- **Learning and Skill Development:** Participants likely acquired new skills or honed existing ones during the hackathon. The celebration can recognize and showcase the learning that occurred, contributing to ongoing professional development.
- **Networking Opportunities:** The celebration provides a platform for participants to network with each other, mentors, judges, and potentially other stakeholders. This expanded professional network can be valuable for future collaborations.
- **Recognition and Awards:** Acknowledging outstanding contributions through awards or recognition ceremonies is a common outcome. This not only motivates participants but also sets a standard for excellence within the institution.
- **Idea Validation and Feasibility:** The celebration may include discussions on the feasibility and potential impact of the generated ideas. It's an opportunity to validate concepts and determine their alignment with the institution's goals.
- **Feedback and Improvement:** The event can be used as a platform for constructive feedback. Participants receive insights on how to improve their ideas or the hackathon process for future iterations.
- **Strategic Alignment:** By showcasing the outcomes, the institution can ensure that the generated ideas align with its strategic priorities. This alignment is crucial for deciding which ideas should be further developed or implemented.
- **Documentation for Future Reference:** The celebration can mark the documentation of the hackathon outcomes for future reference. This documentation may include ideas, prototypes, lessons learned, and feedback.
- **Inspiration for Future Initiatives:** The success of the hackathon celebration can inspire the institution to organize similar events in the future, fostering a culture of continuous innovation and improvement.

- **Public Relations and Marketing:** Sharing the outcomes of the hackathon externally can enhance the institution's public image. It demonstrates a commitment to innovation and problem-solving.
- **Seed Funding or Support:** Depending on the nature of the ideas generated, the celebration may attract interest from institutional leadership, sponsors, or investors who may provide seed funding or support for further development.
- **Cultural Impact:** The celebration can contribute to shaping the institution's culture, emphasizing the importance of creativity, collaboration, and proactive problem-solving.

It's essential to carefully plan the celebration to maximize the positive impact and leverage the outcomes for the benefit of the institution and its stakeholders.

**Title:**Poster presentation of Ideas with Innovations

**Date:** 04-09-2023

**Duration:**3 hours

**Activity Category:**CALENDER ACTIVITY-Q1

## 1. Objective:

The objective is to foster a collaborative environment where participants can share, discuss, and celebrate the latest breakthroughs in various fields. From groundbreaking technologies to forward-thinking concepts, this event aims to inspire creativity, spark meaningful conversations, and pave the way for future collaborations. Come be a part of this dynamic exchange of ideas and contribute to the ever-evolving landscape of innovation.

## 2. Outcome of the session:

- Knowledge Exchange: Facilitate the exchange of innovative ideas, concepts, and methodologies across diverse fields, fostering cross-disciplinary learning and collaboration.
- Inspiration and Creativity: Ignite creativity and inspiration among participants by exposing them to novel and cutting-edge innovations, encouraging outside-the-box thinking.
- Provide a platform for networking and relationship-building among attendees, including researchers, industry professionals, and enthusiasts, fostering potential collaborations and partnerships.
- Visibility and Recognition: Offer a chance for presenters to showcase their work to a wider audience, increasing visibility and potentially attracting interest from investors, collaborators, or mentors.
- Promotion of Problem-solving: Encourage problem-solving approaches by highlighting how innovations address real-world challenges and contribute to the advancement of their respective fields.

- **Enhanced Presentation Skills:** Provide an opportunity for participants to enhance their communication and presentation skills as they effectively convey complex ideas to a diverse audience.
- **Collaborative Opportunities:** Identify potential areas for collaborative projects and initiatives among participants, bridging gaps between academia, industry, and other sectors.
- **Documentation of Innovations:** Create a repository of innovative ideas and projects, contributing to the collective knowledge base and serving as a resource for future research and development.
- **Community Building:** Foster a sense of community among participants who share a passion for innovation, creating a supportive environment for ongoing dialogue and future collaborations.

**1. Objective:**

To bring into spotlight the innovation and applications in robotics inspired by ideas and ideals that provides opportunities for faculties and students. World Students' Day is celebrated on October 15 each year to commemorate the birth anniversary of Dr. A.P.J. Abdul Kalam, a renowned Indian scientist, educator, and the 11th President of India.

**2. Outcome of the celebration:**

To develop their skills as a student's team, innovators, and leaders

To create essential awareness amongst the students on "Spreading awareness about the works of Dr. APJ Abdul Kalam"

The IIC aims to create an entrepreneurial innovation idea in the campus.

### SESSION OUTCOME

Students felt that public speaking competition (Spreading awareness about the works of Dr. APJ Abdul Kalam) was motivating new technology is being developed for training, to bridge the skill gap and provide with the knowledgeable workforce one need.

It stresses the importance of education as a human right and a potent instrument for personal and social development. It promotes great education for everybody, regardless of background. World Student's Day celebrates youth and their influence on the future.

World Students' Day, celebrated on October 15, honours the never-say-die spirit of former president Dr APJ Abdul Kalam, emphasising the importance of education and commemorating his dedication to teaching and inspiring students globally.

**Date** : 22-11-2023

**Duration** : One day (06 Hours)

**Activity Category** : IIC activity – Q1

**Objective:**

The National Entrepreneurship Day aims to celebrate and honor the spirit of entrepreneurship, fostering a culture of innovation, job creation, and economic growth, while inspiring and educating aspiring entrepreneurs to pursue their ventures.

**Outcome of the session:**

1. National Entrepreneurship Day celebration event can lead to increased awareness and inspiration, fostering a supportive environment for entrepreneurship.
2. It may also facilitate networking, knowledge sharing, and discussions on policies, contributing to the growth of entrepreneurial ecosystems and economic development.

### SESSION PPT

### YOUTH SOCIAL ENTREPRENEURSHIP

"Leading Innovation with Ethical Inspiration"

By  
Dr.S. John Don Bosco  
Professor  
FST, Pondicherry University,  
Puducherry

- Entrepreneurship → life attitudes → courage to act → being innovative.

### ENTREPRENEURSHIP

- Entrepreneurial qualities or behavior:
  - creativity and curiosity
  - motivation by success
  - willingness to take risks
  - ability to cooperate
  - identification of opportunities
  - ability to be innovative and tolerate uncertainty.

### Definitions of Social Entrepreneurs

- Social entrepreneurs are driven by a social mission, implying that:
- Success is defined by creating the intended social impact, not simply by:
  - Economic value creation for owners, managers, and employees, or
  - Consumption value for customers

"Social entrepreneurship can lead to a new, socially responsible business model that focuses beyond market boundaries and profit maximization" (Dornstein 2004; Yunus 2006).

Social entrepreneurship is addressing social needs using sustainable business solutions that make an impact on a community and ultimately society as a whole

### Everyone A Changemaker

Social Entrepreneurship's Ultimate Goal

By Bill Drayton

AGENCY INVENTIONS FOR THE PEOPLE

we envision that every citizen around the globe has the opportunity to be a social entrepreneur:

- ✓ A powerful, new, system change force.
- ✓ Caring.
- ✓ Potential for widespread impact.
- ✓ Entrepreneurial quality.
- ✓ To the common good.

### Bill & Melinda Gates

Young Innovation

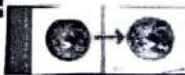

1. More and more young people from various socio-economic groups around the world are challenging and rejecting old notions of jobs and searching for more meaningful ways to earn a living.
2. Young people today want to have a professional career that they can own a living and at the same time contribute to society.
3. Taking initiative, creating a project, conceptualizing and launching one's own venture are accepted, not the rule in most young people's experience.

"The Bill & Melinda Gates Foundation is leading conversations and taking one of the largest sums of funds ever made to fund these conversations, and the foundation of the Bill & Melinda Gates Foundation."

Source: Gates, The Value of Market-Driven Ideas and the Power of Sustainable Development Research Report

### DO I WANT TO CREATE MEANING?

Some look at things that are, and ask why?  
I dream of things that never were and ask why not?  
-George George Bernard Shaw

## DEPARTMENT OF FOOD TECHNOLOGY

### SESSION PPT

#### Passion, Skills and Opportunities

Begin with your personal passions. What do you love to do? What would you like to make an impact? If you could do anything to make a change, what would it be?

The second step is identifying what type of social venture you would like to start. Is it based on your skills and experiences? What are you good at? What skills do you want to have one day?

The next step is to look at your personal passions and your skills and then think about different social issues that you could address.

**Passion:** What do you love to do? Do you love sports? Do you love to read? Do you like to make things and play games? Do you like to work with others and be entrepreneurial? What are your personal skills?

**Skills & Experiences:** What are you good at doing? Are you good at technology in terms of a computer? Are you good at writing? Are you good at speaking? Are you good at working with people?

**Social & Environmental Issues:** What are the major social and environmental issues that you would like to address? What would you like to do to make a difference? What are the problems that you would like to solve?

**Socio-Economic Problems:** What problems do you face most often? What would you like to do to solve them? What are the problems that you would like to solve?

#### Systems only change when people think and see in new ways...

**IDEA → IMPACT**

#### Systemic Change

Involves the interaction of ideas, movements, models and interests.

"The goals of ecological protection, the eradication of poverty, equitable economic development, respect for human rights, democracy, and peace are interdependent and indivisible" (The Earth Charter)

#### If you have a good idea, how are you going to be heard? What is your strategy to engage key individuals in supporting you or joining you?

**Exercise:** Elevator Speech: prepare a 30 seconds speech addressing:

1. Problem/Opportunity
2. Audience/Beneficiaries
3. Solution/Innovation
4. Impact/Systemic Change

#### STARTUP AND CHANGE THE WORLD

**The Concept Elements**

- 1. Problem/Opportunity
- 2. Audience/Beneficiaries
- 3. Solution/Innovation
- 4. Impact/Systemic Change

**The Plan Elements**

- 1. Location/Setting
- 2. The Problem/Opportunity
- 3. The Solution/Innovation
- 4. The Audience/Beneficiaries
- 5. The Impact/Systemic Change
- 6. The Funding/Support
- 7. The Marketing/Promotion
- 8. The Evaluation/Measurement
- 9. The Sustainability/Long-term Impact

**The Theory of Change**

#### Sustainable Enterprises and The Earth Charter

**Respect**

- 1. Sustainable economic development
- 2. Social Universal Responsibility
- 3. Human Rights
- 4. Peace and Non-Violence
- 5. Common but Differentiated Responsibility
- 6. Environment
- 7. Eradication of poverty
- 8. Economic
- 9. Education
- 10. Democracy
- 11. Common Good
- 12. Sustainability

"The key challenge in cultivating an entrepreneurial culture globally among young people is figuring out the best ways to unleash their potential to innovate, create, catalyze, be resourceful, solve problems and take advantage of opportunities while being ethical."

**What is going to be your innovative solution for this challenge?**

**Title: Quality Assurance and Sustenance in Higher Education****Date:** 09.11.2023**Duration:** 1 day**Activity Category:** IIC activity**1. Objective:**

The seminar on “Quality Assurance and Sustenance in Higher Education Seminar” provides an opportunity to have the gathering of educators, administrators, policymakers, researchers, and various stakeholders of higher educational Institutions across the country to discuss about the Quality Enhancement in Teaching and Learning Processes and also highlights of NEP-2020. This Seminar focuses on exploring and promoting the principles and practices related to maintaining and improving the quality of higher education institutions and programs. This is also to foster discussions and knowledge sharing about quality assurance and sustenance in higher education, addressing challenges, innovations, and best practices to ensure consistent delivery of high-quality education. The Seminar covers a wide range of topics related to reforms in curricula and pedagogy in NEP 2020, using AI in teaching and learning in HEI’s, skill enhancement and technology based learning in higher Education

**2. Outcome of the celebration:**

**Informed Discussions:** The gathering of educators, administrators, policymakers, researchers, and stakeholders will foster informed discussions on Quality Enhancement in Teaching and Learning Processes, emphasizing the principles and practices vital for maintaining and elevating the quality of higher education.

**Insights into NEP-2020:** The seminar will provide a platform to delve into the highlights of the National Education Policy (NEP) 2020, enabling participants to gain a deeper understanding of the reforms in curricula and pedagogy.

**Knowledge Sharing:** The event aims to promote knowledge sharing among participants, facilitating discussions on challenges, innovations, and best practices in higher education. This exchange of ideas will contribute to the collective effort to ensure a consistent delivery of high-quality education across institutions.

**Exploration of Technology Integration:** The seminar will specifically focus on the integration of technology in higher education, including the use of Artificial Intelligence (AI) in teaching and learning processes. This exploration aims to showcase advancements and possibilities for incorporating technology in education.

**Skill Enhancement:** Discussions on skill enhancement in higher education will take place, addressing the evolving needs of students and the workforce. The seminar aims to highlight strategies for aligning educational practices with the demands of the modern job market.

**Identification of Best Practices:** Through presentations and discussions, the seminar will identify and showcase best practices in quality assurance and sustenance in higher education. This will serve as a guide for institutions seeking to enhance their educational standards.

**Networking Opportunities:** The event provides a valuable networking opportunity for participants to connect with peers, experts, and professionals in the field of higher education. This networking can lead to future collaborations and partnerships for the advancement of education.

## IQAC DAY CELEBRATION – 2023

### NATIONAL SEMINAR ON QUALITY ASSURANCE & SUSTENANCE IN HIGHER EDUCATION (QASHE'23)

#### ATTENDANCE SHEET (9<sup>th</sup> Nov 2023)

S.No	Participants Name (In Capital Letter) (Certificate Purpose)	Designation /Dept	Name of the Institution	Attendance(FN)	Attendance(AN)
1.	Dr. B. Radjaram	Prof & Head, Mech	MVIT, Puducherry		
2.	Dr. C. Shanmuga Sundaram	Prof & Head, EEE	MVIT, Puducherry		
3.	Dr. S. PARISELVAM	Prof & Head, CSE	MVIT, Puducherry		
4.	Dr. P. SIVAKUMAR	Prof & Head, IT	MVIT, Puducherry		
5.	Dr. G. RENUKA DEVI	Prof & Head, RA	MVIT, Puducherry		
6.	Dr. D. TIROUTCHELVAM	Prof & Head, FT	MVIT, Puducherry		
7.	Dr. P. BASKARARAN	Prof & Head, MBA	MVIT, Puducherry		
8.	Dr. S. SIVARAMA KRISHNAN	COORDINATOR, SEH	MVIT, Puducherry		
9.	Prof. M. SUMITHRA	COORDINATOR, SEH	MVIT, Puducherry		
10.	Dr. S. Arumugam	Prof & Head, EEE	MVIT, Puducherry		
11.	Dr. A. V. Jayapalan	Prof / BT	MVIT, Puducherry		

12.	S. Aruna	AP/FT	MIT, Puducherry		
13.	S. SASI	AP/BBA	TAKSHASHILA UNIVERSITY		
14.	Dr. J. MANIMEGAYAI	AP/COM	ACHARIYA ARTS AND SCIENCE COLLEGE		
15.	A. KOWSALYA	AP/ECE	TAKSHASHILA UNIVERSITY		
16.	S. GANESHKUMAR	AP/MECH	M V I T		
17.	R. RAJASEKARAN	AP/Maths	University College of Engineering Villupuram		
18.	G. VENKADESH	AP/Maths	Krishnasamy College of Engg & Tech. Coimbatore		
19.	A. JEAN LOC	AP/BUSINESS PSY.	SMUNC		
20.	K. Sankala	Lecturer CSE	SMVPTC Puducherry		
21.	M. Ramjani	Lecturer CSE	SMVPTC Puducherry		
22.	Dr. Kamaludeen	Head AP/MBA	CCET Puducherry		
23.	Mr. Balachandiran	AP/MBA	CCET Puducherry		
24.	K. MALATHI	AP/MBA	CCET Puducherry		
25.	Mr. Dennis Joseph	AP/MBA	CCET Puducherry		
26.	R. Sembath Kumar	AP/ECE	MVIT Puducherry		
27.	T. Raja Kariki	Lec/EEE	SMVPTC		

28.	Shailajha R	AP/FT	MVIT, Puducherry	shylh	shylh
29.	Girajendran R	lect / Mech	SMVPTC Puducherry	R. G	R. G
30.	S.K. Sugundham	AP/AI2ML	MVIT, Puducherry	S.K. Sugundham	S.K. Sugundham
31.	KC. NITHYASREE	AP/IOT	MVIT Puducherry	nc sh	nc sh.
32.	DR. V. Govindan	ASP/RA	MVIT, Puducherry	v. Gov	v. Gov
33.	K. Arund	Asst/phy	MVIT Puducherry	U. Arund	U. Arund
34.	Ravichandran S	AP/math	MVIT, Puducherry	he	he
35.	E. Ramassamy	AP/ECE	MVIT, Puducherry	E. Ram	E. Ram
36.	D. Gonsameed	AP/ECE	MVIT, Puducherry	D. Gonsameed	D. Gonsameed
37.	V. Rajesh	AP/ECE	MVIT Puducherry	V. Rajesh	V. Rajesh
38.	C. ARUN	AP/MBA	MVIT, Puducherry	C. Arun	C. Arun
39.	G. ASALYA	AP/MBA	MVIT, Puducherry	G. Asalya	G. Asalya
40.	A. JAINULLABDEEN	AP/AI2ML	MVIT, Puducherry	A. Jain	A. Jain
41.	DR. K. MADHUKAR	VCE A. A	VCE	Dr. K. Madhukar	Dr. K. Madhukar
42.	A. KARTHIK	H.O.D.	SAAC, Sedangpat	A. Karthik	A. Karthik

43.	Dr. R. BAGHYANISHA	AP/FT	MVIT, Puducherry	<u>R. Baghy</u>	<u>R. Baghy</u>
44.	V. Venkadesapremmal	Assistant Professor	SAAC Sedanapet	<u>V. Venkadesapremmal</u>	<u>V. Venkadesapremmal</u>
45.	S. SRITHAR	AP	SAAC Sedanapet	<u>S. Srithar</u>	<u>S. Srithar</u>
46.	Dr. S. VINOTH	AP/ECE	MVIT, PUDUCHERRY	<u>S. Vinot</u>	<u>S. Vinot</u>
47.	S. RAJ KUMAR	AP/EEE	MVIT, PUDUCHERRY	<u>S. Raj</u>	<u>S. Raj</u>
48.	J. VIJAYARAGHAVAN	AP/EEE	MVIT, PUDUCHERRY	<u>J. Vijay</u>	<u>J. Vijay</u>
49.	S. ISTHAYASINGAR.	AP/IT.	MVIT, Puducherry	<u>S. Istha</u>	<u>S. Istha</u>
50.	V. KUMARAGURU	AP/IOT	MVIT,	<u>V. K.</u>	<u>V. K.</u>
51.	R. SATHISH KUMAR	AP/CSE	MVIT, Puducherry	<u>R. Sathish</u>	<u>R. Sathish</u>
52.	S. Ganesh Kumar	AP/mell	MVIT, Puducherry	<u>S. Ganesh</u>	<u>S. Ganesh</u>
53.	R. VASANTH	AP/MECH	MVIT	<u>R. Van</u>	<u>R. Van</u>

## FEEDBACK FORM

TOPIC : "Workshop on Role of IPR in Entrepreneurship"

RESOURCE PERSON: Dr. Baig Mansur Ibrahim, Assoc. Prof/MBA

PARTICIPANTS: MBA II Year

DATE: 07.2.2024

Rating Scale:	Strongly agree	Agree	Neither disagree nor agree	Disagree	Strongly disagree
(Please tick on the number)	5	4	3	2	1

### 1. Facilitator effectiveness

a	The facilitator presented clearly to assist my understanding.	5	4	3	2	1
b	The facilitator promoted adequate participation	5	4	3	2	1
c	The facilitator explained the concepts using relevant examples and Demo.	5	4	3	2	1
d	The facilitator was able to clarify my doubts	5	4	3	2	1

### 2. Program Design

a	The Workshop had a logical sequence	5	4	3	2	1
b	The activities that we are part of the program were relevant and helped me understand the concepts	5	4	3	2	1
c	Workshop design facilitated to improve my analytical /Thinking ability	5	4	3	2	1
d	The topics discussed during the workshop are relevant to obtain the any Certification	5	4	3	2	1

### 3. Overall

a	The Workshop helped me to upgrade my skills	5	4	3	2	1
b	I would recommend this program to my peers and juniors	5	4	3	2	1
c	My overall satisfaction with the Workshop	5	4	3	2	1

### 4. Any suggestions for feedback:

The workshop gave new informations about entrepreneurship.

Informative.

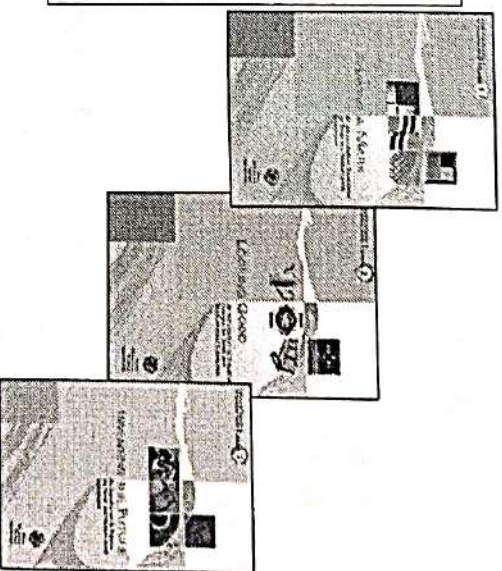

# It Starts with an Idea...

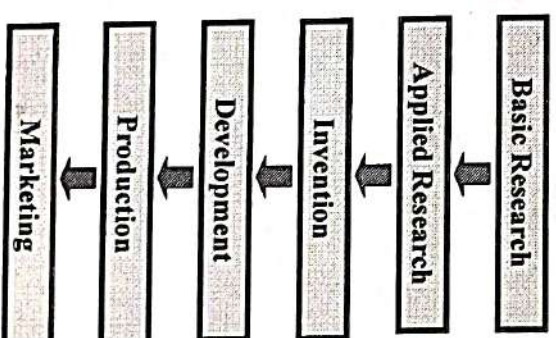

## Role of Intellectual Property Rights in Entrepreneurship"

# IP for Business Series

- Making a Mark (Trademarks)
- Looking Good (Designs)
- Inventing the Future (Patents)

## "Technology-Push Linear Model of Innovation"

## The Innovation Process

- An innovation starts as an idea/concept that is evaluated, refined and developed before it is applied or acted upon.
- Innovations may be inspired by reality (known problem). The innovation (new or improved product development) process, which leads to useful technology, requires:
  - Research
  - Development (up-scaling; testing)
  - Production
  - Marketing
  - Sale
  - Use/Consume
- Experience with a product results in feedback and leads to incrementally or radically improved innovations.

## Spotlight is on knowledge in today's economy

- Knowledge, Weightless, Information, Digital or Service Economy
- Factors of production: Land, Labor, Capital, Intangibles (Knowledge)
- Knowledge as useful Information (or Science)
- Information as a "Public Good"
- Information as Property

## New/Improved Product Development

Stages in a New/Improved Product Development process:

- Ideas Generation
- Ideas Screening
- Concept Development and Testing
- Business Analysis
- Beta Testing and Market Testing
- Technical Implementation
- Commercialization

## Market-oriented Economy

- Playing Field: Unfair competition; free riding
- National Legal Systems: Diversity (bilateral/regional/ international treaties or agreements)
- Adding Value : Meeting or exceeding market needs or expectations
- Market research: Consumers' needs, competing products or substitutes, gaps
- Technological innovation as an element of marketing

## Challenges in Today's Economy

- Government regulation, market participants and consumers; globalization, deregulation, quotas, tariffs, subsidies, market access or non-tariff barriers
- Supply exceeds demand; fickle demand, risk, lean retailing
- Trust and relationships: Consistency vs Innovation
- Changing needs: need for creativity and/or innovation
- Mass production, custom made, personalization, co-creation/designing
- Supply, demand, production, value chain or network
- Innovation/creativity: Customer, supplier, consultant, partner, competitor, standards, product liability, risk sharing, ownership

## The Challenges to the IP System

- Expand, adapt, fine tune, harmonize
- New categories (Sui generis systems)
- National, regional or global
- National treatment vs. reciprocity
- Digital environment and E-commerce
- Legal jurisdiction, applicable laws
- Fit for purpose: Clear, fast, cheap and effective
- Simple and cogent

## Competition and Cooperation in Today's Economy

- Property: Right to Exclude/use/enjoy
- Share/leverage
- Physical vs. Intellectual Property
- **One to one vs. one to many**
- Physical manifestation/link to carrier/medium or fixation
- Nature of competing/substitute products: Functional, equivalent, class, set, related goods

## The challenge of adding value in today's economy

- Raw materials/Inputs: Processing (Value addition) = Value added output/component; product; sale; **Profit**
- Value addition: Better: Functional/technological or aesthetic/non-technological; Rational/Emotional (**More for Less**)
- Price; access/availability; consistency
- Individual, Enterprise (legal person), Chains, Networks; consortia; **Open Innovation** (Industry-Government-Academia)
- Ownership vs. access to knowledge

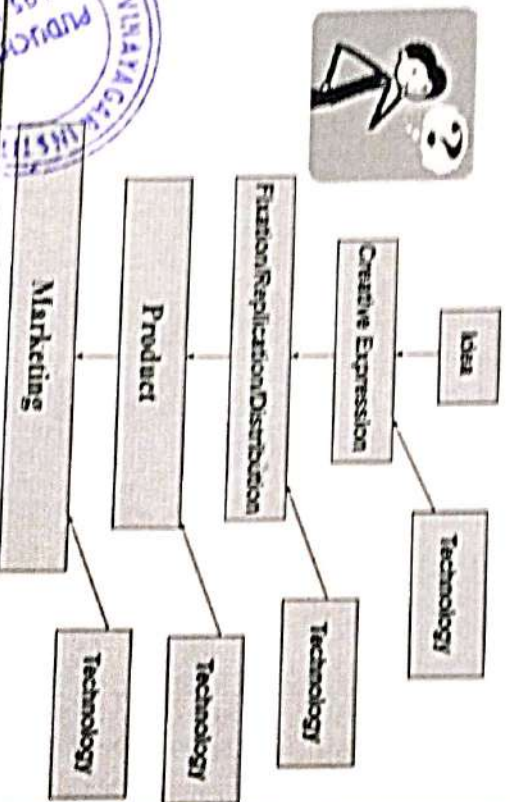

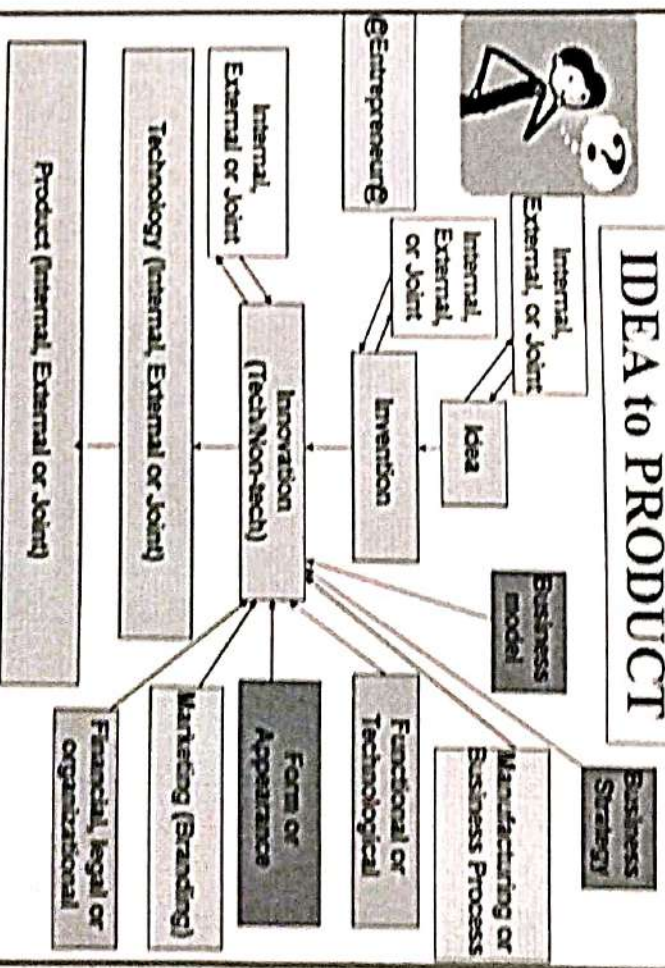

# Ideas, Creativity and Innovation

- **Creativity**  
The ability to make or otherwise bring into existence something new, whether a new solution to a problem, a new method or device, or a new artistic object or form.
- **Innovation**  
1 : The introduction of something new  
2 : A new idea, method, or device
- Creativity = Idea + Action
- Innovation = Creativity + Productivity
- Innovation = Idea + Action + Productivity

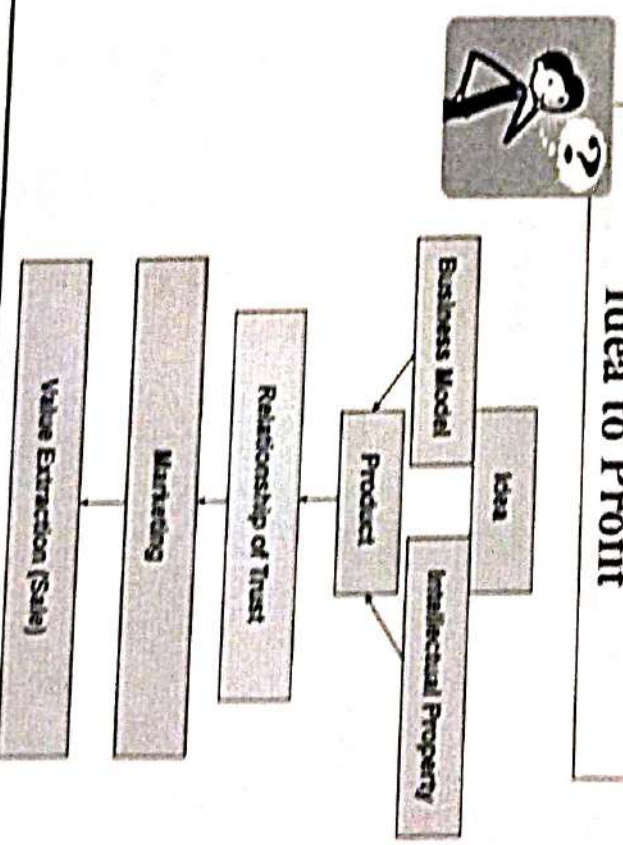

## IDEA to MARKET

## IDEA to PRODUCT

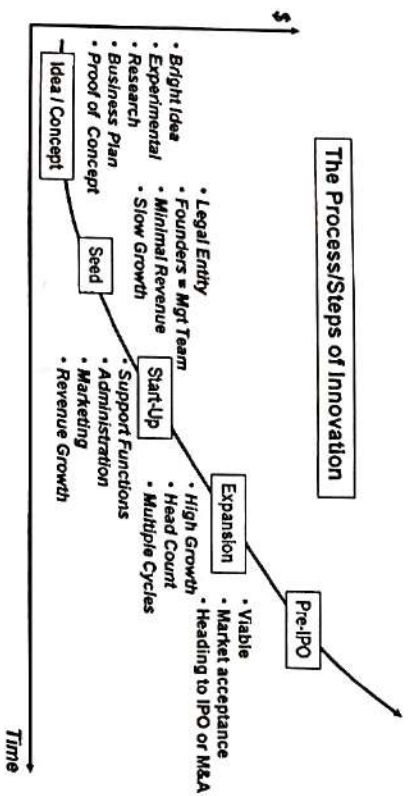

## Idea to Profit

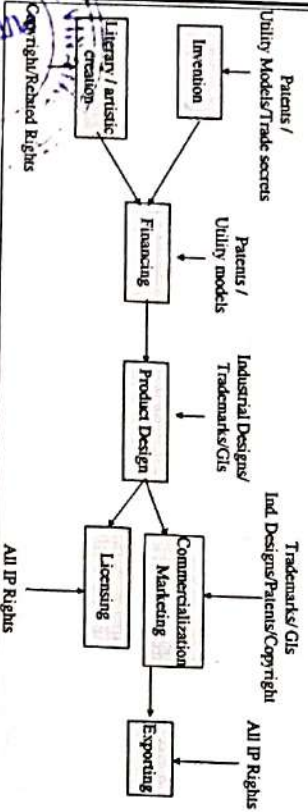

## Understanding the Process of Innovation

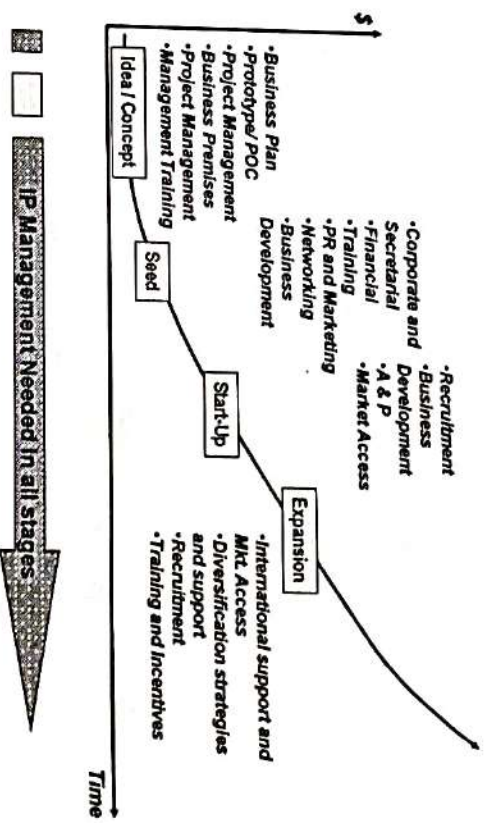

## Basic Message 1

IP adds value at every stage of the value chain from creative/innovative idea to putting a new, better, and cheaper, product/service on the market:

## The Needs of Each Stage

## Basic Message 2

- IP Strategy should be an integral part of the overall business strategy of an Enterprise
- The IP strategy of an Enterprise is influenced by its creative/innovative capacity, financial resources, field of technology, competitive environment, etc.
- **BUT: Ignoring the IP system altogether is in itself an IP strategy, which may eventually prove very costly or even fatal**

## Basic Message 3 (More for Less)

- Own Use
- Licensing
- Franchising
- Merchandising (Mickey Mouse, Hello Kitty)

## What is a trade secret?

- Three essential requirements:
  - The information must be secret \*
  - It must have commercial value because it's secret
  - holder must have taken reasonable steps to keep it secret (e.g. confidentiality agreements)

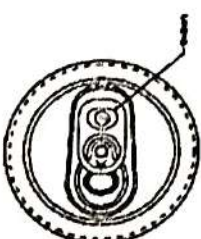

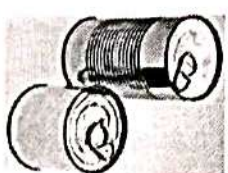

*not generally known among or readily accessible to persons within the circles that normally deal with this kind of information"*

## Patents

### Example: Ring-pull cans

The inventor licensed the system to Coca-Cola at 1/10 of a penny per can. During the period of validity of the patent the inventor obtained 148,000 UK pounds a day on royalties.

## Case Study on Trade Secrets

Monday April 9 3:45 AM ET

Fruit of the Loom Sues Competitor

CHICAGO (AP) - Fruit of the Loom is suing competitor Gildan Activewear Inc., accusing the Montreal company of stealing trade secrets to grab a competitive edge in the cutthroat apparel business.

Fruit of the Loom contends the reports include production goals for plants in El Salvador, Honduras and Mexico that would allow Gildan to estimate production costs. They detail sales to specific customers, trends in demand and budget information.

## Case Study: FBI Arrests Man Selling Software Debug Code

- HINDUSTAN TIMES, New Delhi, August 28, 2002
- Shekhar Verma arrested August 25, Ashok Hotel
- Geometric Software Solutions Limited (GSSL)
- Confidentiality Agreement (Not to disclose, sell, transfer, or assign any information on the project
- US Software Giant, SOLID Works, engaged GSSL for debugging source Code of "Solid Works 2001 Plus"
- Left GSSL in June 2002; took copy of source code

## A Bundle of Exclusive Rights

### Economic Rights

- Reproduce or make copies;
- Distribute to public;
- Sell, rent\*, lease\*, lend, license;
- Display or perform to public;
- Adapt and Translate ("Derivative works");

Inherit, Gift, Sell or

License

### Moral rights\*\*

- Right of paternity; of acknowledgement;
  - Right of integrity: to object against mutilation and/or distortion of work;
- \*\* Moral rights cannot be transferred; but may be waived.

\* Generally apply to certain types of works: i.e. Cinematographic works; musical works; or computer programs

## IP Rights: Copyright

- Rights given to creators for their literary and artistic works
- Protected works: books; newspapers; computer programs; databases; films, musical compositions; choreography; paintings; drawings; photographs; sculpture; architecture; advertisements; maps and technical drawings; no registration
- Generally protected for 50 years after the death of the author
- Extent of overlap between copyright and design laws

## Copyright Works

FILMS

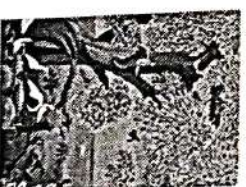

LITERARY

DRAMATIC

MUSIC

ARTISTIC

SOUND RECORDING

## What are Related Rights?

There are three kinds of "related rights":

Rights of performers	Rights of producers of sound recordings (also called phonograms) in their recordings (cassette recordings, compact discs, etc.);	Rights of broadcasting organizations in their radio and television programs and in Internet broadcasts such as 'podcasts'.
<ul style="list-style-type: none"> <li>Actors</li> <li>Musicians</li> <li>Singers</li> <li>Dancers</li> <li>... or generally people who perform in their performances;</li> </ul>		

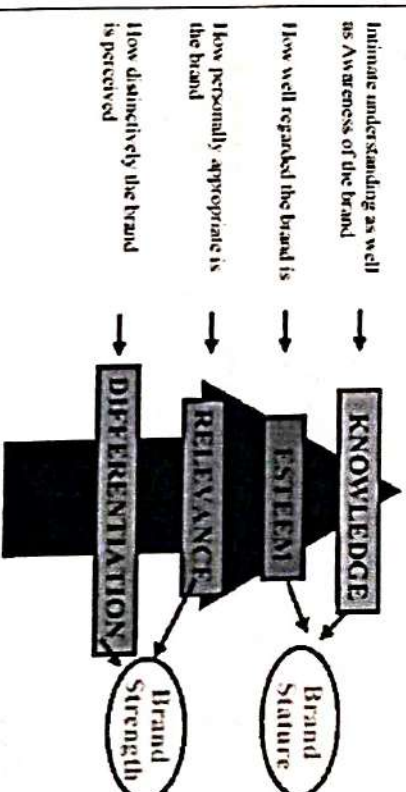

## Building Trust and Relationships

- A Brand is a consistent, holistic promise/pledge made by a company; the face a company presents
- A Brand serves as an unmistakable symbol for products and services
- "Business card" a company proffers on the competitive scene, to set itself apart from the rest

## Marketing principles.....

- Identify opportunities and threats
- Identify customer needs and expectations
- Respond to a competitive environment
- Carefully plan to make a New or Improved Product
- Use the 4 P's....
  - > Product service
  - > Price
  - > Promotion
  - > Place (distribution)
- Retain flexibility to respond to unforeseen changes

## How Brands Are Built

Source: Association of Professional Design Firms, APDF, [http://www.apdf.org/Public/index.asp?Page\\_ID=74](http://www.apdf.org/Public/index.asp?Page_ID=74)

## Trademarks

- Trademarks are valuable business assets
- Interbrand 2003 Annual Survey of the world's most valuable global brands:

Coca-Cola: 70.45 billion US\$    Microsoft: 65.17 billion US\$    IBM: 51.71 US\$.

## Value of a brand value is affected by...

- New inventions
- Adaptability to change (Management, Employees)
- Changes in consumer tastes
- Situation and trends in the economy
- Industry trends and brands trends
- Impact of technological developments

## “Brand” Companies

Nike...

Adidas...

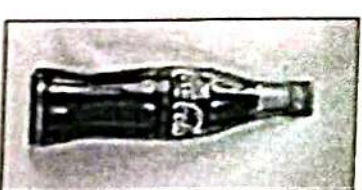

Reebok...

Levi-Strauss...

...Own No Factories

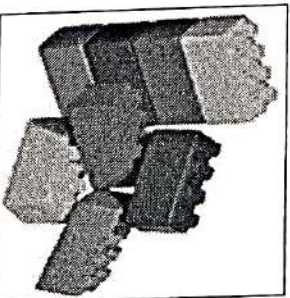

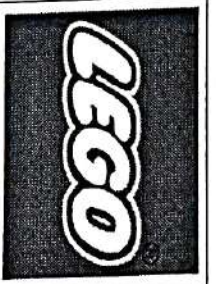

## Example no. 1

- Decades ago, Coca-Cola decided to keep its soft drink formula a secret
- The formula is only known to a few people within the company
- Kept in the vault of a bank in Atlanta
- Those who know the secret formula have signed non-disclosure agreements
- It is rumored that they are not allowed to travel together
- If it had patented its formula, the whole world would be making Coca-Cola

## Example no. 2

- Patent for stud and tube coupling system (the way bricks hold together)
- But: Today the patents have long expired and the company tries hard to keep out competitors by using designs, trademarks and copyright

## Industrial Designs

### Business (Idea) point of view:

- Make your product appealing to consumers
- Customize products in order to target different customers (e.g. Swatch)
- Develop the brand (e.g. Apple's « Think Different » strategy; i Pod)

## Entrepreneurship 1

Entrepreneurship drives innovation, competitiveness, job creation and economic growth.

It allows new/innovative ideas to turn into successful ventures in high-tech sectors and/or can unlock the personal potential of disadvantaged people to create jobs for themselves and find a better place in society.

## Entrepreneurship 2

Entrepreneurship, in small business or large, focuses on "what may be" or "what can be".

One is practicing entrepreneurship by looking for what is needed, what is missing, what is changing, and what consumers will buy during the coming years.

## Entrepreneurship 3

Entrepreneurs have:

- A passion for what they do
- The creativity and ability to innovate
- A sense of independence and self-reliance
- (Usually) a high level of self confidence
- A willingness and capability (though not necessarily capacity or preference) for taking risks

## Entrepreneurship 4

Entrepreneurs do not (usually) have:

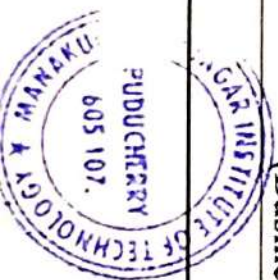

- A tolerance for organizational bureaucracies
- A penchant for following rules
- A structured approach to developing and implementing ideas
- The foresight to plan a course of action once the idea is implemented and established

## Entrepreneurial Success

1. People (Entrepreneur /Entrepreneurial Team)
  2. Opportunity (Marriage of Market and Product/Service)
  3. Access to Resources (Land, Labor, Capital, Knowledge)
- And the fit amongst these three elements  
(Business Model)

## Introduction to IP Management 1

- |                 |              |
|-----------------|--------------|
| • Legal         | • Accounting |
| • Technical     | • Tax        |
| • Business      | • Insurance  |
| • Export        | • Security   |
| • Financial     | • Automation |
| • Relationships | • Personnel  |

## Introduction to IP Management 2

- Trademarks (Brands)
- Geographical Indications
- Industrial Designs
- Patents and Utility Models
- Copyright and Related Rights
- Trade Secrets
- New Varieties of Plants
- Unfair Competition

**Date: 7.10.2023**

**Title: IPR and Technology Transfer****Date:** 7.10.2023**Duration:** 1 day**Activity Category:** IIC activity

Intellectual Property Rights (IPR) and Technology Transfer programs typically aim to educate participants on the importance of protecting intellectual property and facilitate the transfer of technology from research and development to commercialization. Below are the objectives and potential outcomes of such a program in detail:

**1. Objective:**

Objectives of an IPR and Technology Transfer Program:

- **Awareness and Education:** The program should increase awareness and knowledge among participants about various forms of intellectual property rights, including patents, copyrights, trademarks, and trade secrets.
- **IPR Protection:** To educate participants on the importance of protecting intellectual property, and guide them on how to apply for and manage patents, copyrights, and other IP protections.
- **Technology Commercialization:** To facilitate the transfer of technology developed in research and development settings into commercial products or services. This includes understanding the process of licensing or selling technology to interested parties.
- **Legal and Ethical Considerations:** To provide insights into the legal and ethical aspects of IPR, including how to respect the intellectual property rights of others and avoid infringement.
- **Market Evaluation:** Teach participants how to evaluate the market potential of a technology, which is crucial for successful technology transfer and commercialization.
- **Collaboration Opportunities:** Encourage participants to identify collaboration opportunities with industry, academia, and government bodies for technology transfer and commercialization.

**Potential Outcomes of an IPR and Technology Transfer Program:**

- **Enhanced IPR Knowledge:** Participants will have a better understanding of intellectual property rights, their importance, and how to protect their own intellectual property.
- **IPR Strategy Development:** Participants can develop effective strategies for protecting their intellectual property, including filing patents, trademarks, or copyrights where applicable.
- **Technology Commercialization Skills:** Those interested in commercializing technology will gain valuable skills and knowledge related to the technology transfer process, including licensing, negotiation, and contract management.
- **Networking:** Participants can establish valuable connections with experts, professionals, and organizations involved in technology transfer, opening doors for future collaboration and support.
- **Innovation and Research Support:** The program can inspire and support innovation and research activities by providing information on how to turn research outcomes into marketable products or services.
- **Legal Compliance:** A better understanding of intellectual property rights and patent law can help participants avoid unintentional infringements and legal issues.
- **Economic Development:** Successful technology transfer and commercialization can lead to economic development through the creation of new businesses, job opportunities, and increased competitiveness in the market.

- **Research Impact:** For academic and research institutions, the program can help in ensuring that research has a real-world impact and is not limited to academic publications alone.
- **Business Growth:** For existing businesses, the program can help identify and acquire valuable technologies to fuel growth and competitiveness.

Overall, an IPR and Technology Transfer program is designed to equip participants with the knowledge and skills required to effectively protect intellectual property and transfer technology from research settings to the marketplace. The outcomes can include individual and collective benefits related to innovation, economic growth, and legal compliance.

IIC 6.0 CALENDER ACTIVITY Q 1- (2023-24)

INNOVATION AND DESIGN THINKING – 16.10.2023 to 20.10.2023

*Submitted by*

**DEPARTMENT OF GENERAL ENGINEERING**

**COORDINATORS**

Prof.M.Sumithra, First year Coordinator  
Dr.H.Rosi,AP/Chemistry

**Resource Person**

Mr.S.BALAJI , Mrs.VINTHA MARY& Mrs.NITHYA SREE

**TITLE:** INNOVATION AND DESIGN THINKING

**DATE:** 16.10.2023 to 20.10.2023

**DURATION:** Five Days

**ACTIVITY CATEGORY:** IIC activity–Q1

**1. Objective:**

- › Design thinking creates a natural flow of ideas. It emphasizes overcoming preconception and fixation on solutions.

**2. Outcome of the activity:**

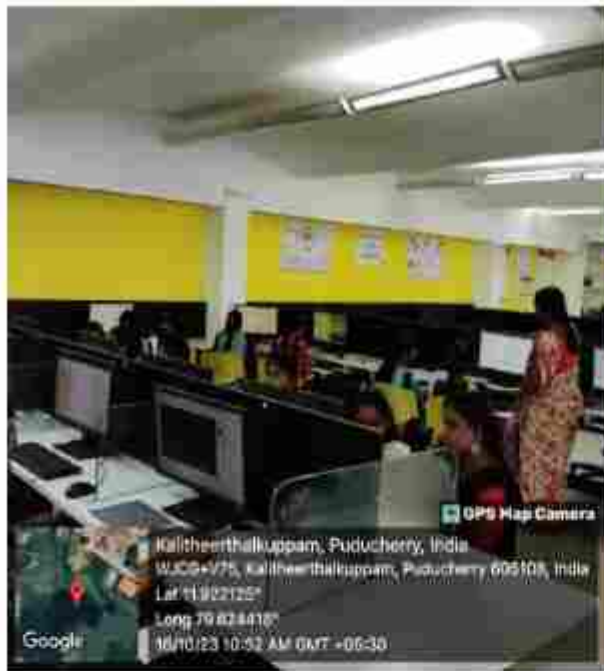

- › Design thinking reduces risk and uncertainty in innovation.
- › Typical design outcomes that are the consequences of actualised designs used in the world

**COORDINATOR**

Dr.P. Sivakumar, Professor/IT

L. Yuvapriya, Assistant Professor/ IT

**DATE: 18.10.2023**

**Title:** Guest Lecture "Pre-Incubation and Incubation Management "

**Date:** 18.10.2023

**Duration:** 3 Hours

**Activity Category:** Self Driven activity-Q1

### **1.Objective:**

Pre-incubation and incubation management are important aspects of the process of nurturing and developing startups or small businesses. These terms are often associated with business incubators and accelerators, which are organizations that provide support, resources, and mentorship to early-stage companies

### **Pre-Incubation:**

Pre-incubation refers to the period before a startup or business officially enters an incubation program. During this phase, entrepreneurs and founders are typically in the ideation or early planning stage of their venture

### **Incubation:**

Incubation is the formalized process of supporting and nurturing startups or small businesses. It typically involves a structured program provided by an incubator or accelerator organization. Idea Development , Team Building , Market Research , Business Planning , Legal and Administrative Setup , Mentorship and Coaching , Workspace , Funding , Networking , Education and Training , Resource Access , Monitoring and Evaluation.

### **Outcome of the Event:**

The outcomes of pre-incubation and incubation management programs are focused on helping startups overcome challenges, refine their business strategies, access resources and networks, and ultimately become successful, sustainable businesses in their respective industries. The specific outcomes achieved can vary widely depending on the startup's industry, goals, and the quality of the program's support

**1.Idea Validation:** Pre-incubation programs aim to validate the viability of a business idea. By conducting market research and testing the concept, startups can determine whether there is demand for their product or service

**2. Business Planning:** Startups that go through pre-incubation typically develop a comprehensive business plan. This plan outlines their goals, strategies, financial projections, and operational details, providing a roadmap for their future growth.

**3. Team Development:** Pre-incubation may help startups build strong, complementary teams. Successful teams are crucial for executing the business plan effectively.

**4. Access to Resources:** Incubation programs provide access to resources that startups might not have on their own, such as office space, infrastructure, and shared services like legal and accounting support.

**5. Mentorship and Guidance:** Both pre-incubation and incubation offer mentorship and coaching from experienced entrepreneurs and industry experts. This guidance helps startups navigate challenges, make informed decisions, and avoid common pitfalls.

**6. Networking Opportunities:** Incubators often create a supportive ecosystem where startups can connect with other founders, potential partners, customers, and investors. Networking can lead to collaborations, business development, and funding opportunities.

**7. Funding and Investment:** Incubators and accelerators can help startups secure funding through various channels, including pitch events, introductions to investors, or access to grant programs. This funding is essential for scale operations.

**8. Skill Enhancement:** Through training sessions and workshops, startups can improve their skills in various areas, including marketing, sales, product development, and financial management.

**9. Product Development and Iteration:** Incubation management might involve product development support, which can lead to the creation of a more refined and market-ready product or service.

**10. Growth and Scaling:** Ultimately, the primary outcome of pre-incubation and incubation management is the growth and scaling of the startup. This includes increasing customer bases, generating revenue, and achieving profitability.

**TOPIC : PRE-INCUBATION AND INCUBATION MANAGEMENT**

**FACULTY:** Dr.P. SIVAKUMAR, HOD/IT  
L.YUVAPRIYA, AP/IT

Name: C. MADESH	Dept.: IT	Roll No.: 28
-----------------	-----------	--------------

Rating Scale:	Strongly agree	Agree	Neither disagree nor agree	Disagree	Strongly disagree
(Please tick on the number)	5	4	3	2	1

### 1. Facilitator effectiveness

a	The facilitator presented clearly to assist my understanding.	5	4	3	2	1
b	The facilitator promoted adequate participation	5	4	3	2	1
c	The facilitator explained the concepts using relevant examples and Demo.	5	4	3	2	1
d	The facilitator was able to clarify my doubts	5	4	3	2	1

### 2. Program Design

a	The Program had a logical sequence	5	4	3	2	1
b	The activities that we are part of the program were relevant and helped me understand the concepts	5	4	3	2	1
c	Program design facilitated to improve my analytical /Thinking ability	5	4	3	2	1
d	The topics discussed during the program are relevant to obtain the any Certification	5	4	3	2	1

### 3. Overall

a	The training helped me to upgrade my skills	5	4	3	2	1
b	I would recommend this program to my peers and juniors	5	4	3	2	1
c	My overall satisfaction with the program	5	4	3	2	1

### 4. Any suggestions for feedback:

Useful session for improving my skills

😊 Thank you for taking the time to share your comments and reactions to your training experience

### Quarter –II Minutes

Academic Year 2023-24

Date of Meeting: 27.11.2023

### Members Present:

Principal	: Dr.S.Malarkkan
President	: Dr.R.Valli, R & D Head
Vice President	: Dr.S.Arunmozhi, HoD / ECE
Convener	: Dr.G.Renuka Devi, HoD/ R & A
Innovation Activity Coordinator	: Dr.S.Arunmozhi, HoD / ECE
Internship coordinator	: Dr.M.Jayekumar, Placement Officer
IPR activity coordinator	: Dr.R.Valli, R & D Head
Social Media Coordinator	: Mr.R.Sathish Kumar, AP / CSE
ARIIA coordinator	: Dr.S.Arunmozhi, HoD / ECE
NIRF Coordinator	: Dr.A.Melappane, Professor/ IT
Startup Coordinator	: Dr.S.Vaidheeswaran, Associate Professor /MBA
Student Coordinator	: R.Rajesh, CSE

### HODs

Dr.B.Radaram, HoD / MECH  
Dr.P.Sivakumar, HoD / IT  
Dr.S.Pariselvam, HoD / CSE  
Dr.C.Shanmugasundaram, HoD / EEE  
Dr.P.Baskaran, HoD / MBA  
Dr.G.Renuka Devi, HoD/R & A  
Dr.N.Poonguzhali, HoD / IoT  
Dr.D.Tiroutchelvame, HoD/FT  
Ms.P.Sumithra, First Year Coordinator

### External Members:

Sl.No	Name	Position	Organization
1	Dr.R.Sundaramurthy	Expert from nearby incubation center	Atal Incubation Center, Pondicherry Engineering College, Puducherry
2	M.R.Manivasakam	Expert from Patent Office	Assistant Controller of Patents
3	S.Kannan	Expert from Industry	Greenery Solar Solutions
4	K.Manojkumar	Alumni Entrepreneur	Ignite Skylabs

**Student Coordinators**

1. R.Rajesh, Innovation Coordinator
2. D.Praveen, Social Media Coordinator
3. M.Sridharan, IPR Coordinator
4. K.V.Sreenidhi, Startup Coordinator
5. M.Elakiya, Internship Coordinator

**Points Discussed**

1. The responsibilities of various committees were explained to the external members.
2. The council was reformulated by adding members to various committees as follows:

S.No	Name of Member	Member Type (Teaching/ Non-teaching / External Expert)	Key Role/ Position assigned in IIC
I.	IIC PRESIDENT  IIC VICE - PRESIDENT	- Dr.R.Valli ,R & D Head  - Dr.S.Arunmozhi, HoD /ECE	<ul style="list-style-type: none"> <li>Monitors and ensures that the activities of IIC</li> <li>Attending IIC orientation programs</li> <li>Preparing the IIC Action plan with timeline</li> <li>Encouraging active students participation</li> <li>Arranging the Webinars, Guest lecture sessions</li> <li>Reports Updation</li> </ul>
II.	IIC CONVENER	- Dr.G.Renuka Devi, HoD/R & A	<ul style="list-style-type: none"> <li>Supporting in all the IIC activities</li> <li>Issuing circular</li> <li>Making arrangements for conducting IIC Events</li> </ul>
III.	Innovation activity coordinator	Dr.S.Arunmozhi, HoD / ECE	<ul style="list-style-type: none"> <li>Arranging inter department and inter college technical competitions like quiz, poster presentation, circuit debugging, code debugging, mini project etc.</li> <li>Arranging for Inter disciplinary Technical lectures.</li> <li>Motivating and guiding the students to participate in technical events and competitions.</li> </ul>

IV.	Internship coordinator	Dr.M.Jayekumar Placement Officer	<ul style="list-style-type: none"> <li>• Arranging internship, expert lectures based on the requirements.</li> <li>• Facilitating the Faculty members to visit the industries and get exposure on industrial practices</li> <li>• To assist the Departments in organizing workshops, conferences and symposia in collaboration with industries and take up industry supported mini projects and projects</li> </ul>
V.	IPR activity coordinator	Dr.R.Valli R & D Head	<ul style="list-style-type: none"> <li>• To create an awareness about IPR for faculties and students of the Institute</li> <li>• To conduct workshops, seminars and training course on IPR</li> <li>• To disseminate knowledge on patents, patent regime in India and registration aspects</li> <li>• To impart training on future endeavors regarding patent filing processes</li> <li>• To encourage faculty members and scholars to go for patentable works</li> </ul>
VI.	Social Media Coordinator	Mr.R.Sathishkumar Assistant Professor/CSE	<ul style="list-style-type: none"> <li>• Gathers, maintains, and utilizes lists of media contacts for targeted outreach</li> <li>• To Design the social media msgs/Posters/vedios that promote the IIC cell of the institute</li> <li>• Updation about the status of all IIC activities and achievements of the institution across various social media like Facebook, Whatsapp, Google +, Twitter etc., as a part of weekly maintenance</li> <li>• Publication of the important events in newspapers</li> <li>• To update the IIC related information's in Institution Newsletter</li> <li>• To create Youtube channels to showcase the activities of the IIC Cell</li> </ul>
VII.	ARIIA Coordinator	Dr.S.Arunmozhi HoD/ECE and all HoDs	<ul style="list-style-type: none"> <li>• Summarizing the reports required for ARIIA ranking</li> <li>• Collection of Data's and Information about the various indicators like</li> <li>• Budget &amp; Funding Support</li> <li>• Infrastructure &amp; Facilities, Awareness</li> <li>• Promotions &amp; support for Idea</li> </ul>

			Generation & Innovation <ul style="list-style-type: none"> <li>• Promotion &amp; Support for Entrepreneurship Development</li> <li>• Innovative Learning Methods &amp; Courses</li> <li>• Intellectual Property Generation, Technology Transfer &amp; Commercialization</li> <li>• Innovation in Governance of the Institution.</li> <li>• Submission of Data's and Reports</li> </ul>
VIII.	NIRF coordinator	Dr.A.Meiappane Professor/IT and all HoDs	<ul style="list-style-type: none"> <li>• Summarizing the repots required for NIRF ranking</li> <li>• Collection of Data's and Information about the various indicators like</li> <li>• Teaching, learning and resources (TLR)</li> <li>• Research, professional practice and collaborative performance (RPC)</li> <li>• Graduation outcome (GO)</li> <li>• Outreach and inclusivity (OI)</li> <li>• Perception (PR)</li> <li>• Submission of Data's and Reports</li> </ul>
IX.	Startup Committee Coordinator	Dr.S.Vaidheeswaran, Associate Professor /MBA	<ul style="list-style-type: none"> <li>• To organize and coordinate startup promotion activities.</li> <li>• To trigger creative tendency of students.</li> <li>• To engage youth in nation building process</li> </ul>
