SDG PUVIKAPOM Organizes SDG-14 Awareness Program and Drawing Competition

To foster awareness about **Sustainable Development Goal (SDG) 14 – Life Below Water**, **MVIT- SDG-PUVI KAAPOM** is organizing a **Drawing Competition for School Students** along with an **awareness session for students and Teacher**. This initiative aims to educate young minds about the importance of conserving marine life, protecting aquatic ecosystems, and ensuring sustainable use of ocean resources.

Through the **drawing competition**, students will creatively express their understanding of marine conservation, pollution prevention, and the impact of human activities on aquatic life. The event will encourage them to think critically about environmental challenges and solutions.

Additionally, an **awareness session** will be conducted for both students and faculty to discuss the significance of SDG-14, the threats to marine biodiversity, and how individuals can contribute to ocean conservation. Experts and educators will share insights on responsible consumption, reducing plastic waste, and promoting sustainable fishing practices. By engaging school students in this initiative, **MVIT- SDG-PUVI KAAPOM** hopes to inspire a sense of responsibility toward marine life, fostering a generation that values and actively participates in environmental conservation efforts.
